EDUCATION

GOVERNMENT COLLEGE OF ENGINEERING, AMRAVATI
B.Tech - Computer Science
December 2020 - June 2024
CGPA: 8.96

SKILLS

Languages:
Java, JavaScript, Python, C / C++, SQL

Frameworks:
Spring Boot, Sencha ExtJS, RESTful API, Tailwind CSS

Databases/Tools:
MySQL, Git, Postman, Jupyter, VS Code

Concepts:
DSA, OOP, Agile Methodology, Debugging, System Design, Automation, Prompt Engineering

Soft Skills:
Communication, Problem Solving and Analytics, Leadership, Team Collaboration

CodeChef: dipesh9765
Leetcode: dipesh9765
GFG: blackday_alpha

COURSEWORK

UNDERGRADUATE
Data Structures and Algorithms
Object-Oriented Programming
Database Management Systems
Operating Systems
Software Development Life Cycle
AI / ML

EXPERIENCE

NOVATECH SOFTWARE | Nagpur, MH
January 2024 - Present

- **Technical Stack**: JavaScript, Sencha ExtJS (MVC/MVVM), Java, MySQL, Spring Boot, Data Structures and Algorithms, Agile Methodology (SCRUM).

- **Junior Software Developer** (September 2024 **- Present**):
  - Leading end-to-end development of **Use Case Editor**, enabling users to write use cases, auto-generate activity diagrams and test cases.
- **Software Trainee** (May 2024 - August 2024):
  - Developed and integrated **3 R&D projects**.
  - Integrated an AI chatbot to assist users in navigating the system.
  - Integrated **AI services** (OpenAI, Azure OpenAI, Claude) into flagship product *Topteam Analyst*, improving user productivity by 40%:
    - Built an AI chatbot to guide users through complex workflows.
    - Automated record generation/modification using NLP prompts.
  - Engineered a role-based **dashboard** using gridstack, improving user workflow efficiency by 30%.
- **Software Intern** (January 2024 – April 2024):
  - Designed a **paste enhancement feature**, reducing record creation time by 95%.
  - Resolved the persistent Fullscreen issue in the product.

PROJECTS

BIG DATA SEARCHING SYSTEM | **Technology**: Python, MySQL, JavaScript, Big Data

- Developed a distributed search engine using **inverted indexing**, reducing keyword search latency by 70% in 10M+ datasets.
- Implemented inverse indexing techniques to optimize data retrieval from vast datasets. Integrated big data management strategies, enhancing data processing efficiency.

ACHIEVEMENTS

- **Employee of the Month** (May 2024) | Recognized for impactful AI integration at Novatech.
- **1st Place**, Talent Hunt 2024 | Among 10,000+ participants nationwide (L&T EduTech).
- **Finalist**, Smart India Hackathon 2022 | Top 1% among 50,000+ teams.
- **1000+ Problems Solved** on Leetcode/GFG/CodeChef | CodeChef Rating: 1630 (Top 10%).
- **DSA/CP Advisor**, Google Developer Student Clubs | Mentored 100+ students.
- **Co-convenor**, Prajwalan 2k22 (College Technical Fest).
